RE: Snohomish County Addendum No. 3 to the VISION 2040 FEIS related to amending the Municipal Urban Growth Area (MUGA) Boundaries map, Urban Growth Area (UGA) Boundaries map, and the reconciled 2025 population and employment growth target tables for the unincorporated MUGAs relating to map amendments for the Countywide Planning Policies (CPPs) for Snohomish County.

Dear Interested Citizen,

This letter is to notify you that the Snohomish County Department of Planning and Development Services (PDS) has issued Addendum No. 3 to the Puget Sound Regional Council's Final Environmental Impact Statement (FEIS) for VISION 2040. The purpose of Addendum No. 3 is to provide environmental information relating to the non-project action to consider revising Appendix B of the CPPs for Snohomish County.

The information in this Addendum adds to the analysis of previously identified significant impacts of the alternatives in the VISION 2040 FEIS issued in March 2008. PDS has determined that this information does not significantly change the analysis of impacts and alternatives contained in the VISION 2040 FEIS, nor does it identify new or significantly different impacts. Addendum No. 3 is being issued pursuant to WAC 197-11-625 to meet Snohomish County's State Environmental Policy Act responsibility. No comment period is required for this Addendum.

Addendum No. 3 is available online at www.snoco.org. In the search box, type in "*Plans and Reports*" and go to the Environmental Documents link. Additional copies of Addendum No. 3 are available for review or sale at the 2nd floor PDS office in the Snohomish County Administration West Building, 3000 Rockefeller Avenue, Everett, WA 98201 or contact PDS at (425) 388-3311, Ext. 2206 to order copies. There is a charge for reproduction costs.

Your interest in Snohomish County is greatly appreciated. If you have any questions regarding the content of Addendum No. 3, please call Jacqueline Reid, Supervisor, (425) 388-3380.

Sincerely,

Clay White, Director
Planning & Development Services

FACT SHEET

Project Title:	Countywide Planning Policy Update for Snohomish County
Proposed Non-Project Action:	The proposed non-project action by the Snohomish County Council is to adopt an ordinance that amends maps and tables in Appendix B of the Countywide Planning Policies (CPPs) for Snohomish County.
Notice of Adoption	<p>Snohomish County PDS adopts an existing environmental document, the Final EIS (FEIS) for VISION 2040, which was issued March 2008, by the Puget Sound Regional Council. PDS has identified and adopted this FEIS as being appropriate to this proposed non-project action. The FEIS meets Snohomish County's environmental review needs for the current proposal and will be transmitted to the county council with Snohomish County Addendum No. 3 to the VISION 2040 FEIS.</p>
Purpose of the Addendum:	<p>Snohomish County Addendum No. 3 to the VISION 2040 FEIS adds information relating to the non-project programmatic county action described above. This information does not result in any new significant adverse environmental impact and does not change the analysis of previously identified significant adverse impacts in the FEIS for VISION 2040.</p> <p>No additional significant impacts beyond those identified in the VISION 2040 FEIS are expected to occur. Revisions to the proposed non-project action may be considered during the public hearing process. To the extent that the existing environmental document (VISION 2040 FEIS) listed in this addendum has analyzed such revisions, no additional programmatic non-project level environmental review will be required.</p>
Description of Proposal:	<p>This ordinance amends Appendix B of the Countywide Planning Policies (CPPs). The proposed amendments to Appendix B of the CPPs are comprised of a revision to the Mukilteo Municipal Urban Growth Area (MUGA) boundary and several technical corrections. The proposal amends the two maps contained in Appendix B of the CPPs (The Southwest Snohomish County MUGA Boundaries map and the Urban Growth Area (UGA) Boundaries map.) The proposal would also amend Table 3 (Reconciled 2025 Population Growth Targets for unincorporated MUGAs) and Table 4 (Reconciled 2025 Employment Growth Targets for unincorporated MUGAs), associated with proposed map amendments. The amendments are consistent with Vision 2040 and the GMA. The county council may consider additional amendments to the proposed ordinance. The proposed amendments are reasonably related to and necessary for the advancement of the GMA goals found in RCW 36.70A.020. The proposed CPPs comply with the GMA requirements in RCW 36.70A.210 and RCW 36.70A.215.</p> <p>This addendum is being issued in accordance with WAC 197-11-625 and WAC 197-11-630. The adopted environmental document listed herein, together with this addendum, meet Snohomish County's environmental review needs for this non-project action.</p>

VISION 2040 Final Environmental Impact Statement, March 2008

PROPOSED ACTIONS AND ENVIRONMENTAL REVIEW

Overview:

The adoption of the Countywide Planning Policies Update is a non-project action under the Washington State Environmental Policy Act (SEPA). This Addendum is not intended to satisfy individual project action SEPA requirements (the review needed for a future site-specific land use or building permit application). This Addendum does not significantly change the analysis of impacts and alternatives contained in the VISION 2040 FEIS, nor does it identify new or significantly different impacts.

Prior Environmental Review

The elements of the environment addressed in the VISION 2040 FEIS include elements of both the natural and built environment: earth, air, water, plants and animals, energy and natural resources, environmental health, population and employment, land and shoreline use, transportation, public services, and utilities.

EIS Addendum Environmental Review

According to the SEPA Rules in WAC 197-11, an Addendum to an EIS provides additional analysis and/or information about a proposal or alternatives where their significant environmental impacts have been disclosed and identified in a previous environmental document (WAC 197-11-600(3)(b)(ii)). An Addendum is appropriate when the impacts of the new proposal are the same general types as those identified in prior documents and when the new analysis does not substantially change the analysis of significant impacts and alternatives identified in the prior environmental documents (WAC 197-11-600(4)(e), WAC 197-11-706).

This Addendum is being issued pursuant to WAC 197-11-625 to meet the County's SEPA responsibility. The VISION 2040 FEIS evaluated alternatives and impacts that encompassed similar general policy direction, land use patterns, and environmental impacts that are expected to be associated with the proposal identified in this Addendum.

The proposal does not substantially change the analysis of significant impacts described in the existing environmental documents. No additional significant impacts beyond those identified in the VISION 2040 FEIS are expected to occur.
